The Blue Cross of Idaho Foundation for Health is supporting multi-use recreational paths and trails because they are valuable community assets specifically created to encourage exercise and promote physical fitness and wellness for everybody. Cyclists, hikers, walkers, joggers, rollerbladers, picnickers, and wildlife observers can all use pathways and trails to stay healthy and experience the natural beauty of the communities they serve. Pathways and trails also preserve open spaces, contributing to the aesthetic quality of a community. Funds donated by the Foundation as a result of the Blue Cruise event will serve to expand or maintain community pathways and trails.
